HESI A2 Exam for DSU Nursing

Before the Testing Appointment

- Create an account with the company that offers the HESI_A2 exam (El Sevier)
  - https://evolve.elsevier.com/cs/register
  - Enter your first and last name, email address, and password then confirm the password. Click "Submit"
- You will receive an confirmation email and be able to **access your results online** after you complete the exam which must be included with your application.

Begin the HESI A2 Exam

- Login to your student account at https://evolve.elsevier.com/cs/#
- There is **no talking allowed** between students at any time in the testing room. Do not attempt to look at others screen's or notes, and your eyes should be kept on your exam at all times. If any misconduct is experienced it will be reported to DSU's Nursing Advisors/Administrators.
- The **test is timed for 5 hours**. The timer is at the top of the screen, and once it starts it won't stop for any reason. Keep this in mind if you need to take a **bathroom break**, get a drink of water, or just need to stretch your legs. You must take these breaks between modules, not in the middle of a module. During these breaks please don't access any reference materials including text books, the internet, or cell-phones.
- **Required Test Modules:**
  - Learning Style
  - Personality Profile
  - Reading Comprehension
  - Math (Electronic calculator provided)
  - Grammar
  - Vocabulary
  - Chemistry
  - Anatomy & Physiology
  - Biology
  - Most modules are between 30 to 55 questions long. **You may do the modules in any order** you desire.
  - Two of the modules, "*Learning Style*" and "*Personality Profile*" are not that long and do not affect your assessment score. However, you **must** complete all the modules in order to generate a cumulative score.
  - Although you can take the modules in any order you would like, **you must answer the questions in those modules in order**. If you skip a question you will not be able to return later, and it will be counted as a wrong answer. **Do not** try to use the backspace button on the keyboard. It will not take you back a question, and could cause the program to lock up.
  - **Do not try to access the internet** on these computers during your test. If we detect that you have accessed the internet during the test, your scores will be **voided!**
  - **Do not press the "View my Scores**" button on the main page of the test. It will not display the scores and could disconnect you from the test. Likewise do not press "print scores" because it also will not work (It is a **LockDown** Browser). You will be emailed a link to the email you registered with EVOLVE. Use your Username and Password that you created to have electronic access to your score report. You can include that with your application.
  - When you finish the exam, click the "**exit" button** in the top right of the main screen.
